

# Platinum Natural Gas Solutions

THE HIGHEST STANDARD IN MEASUREMENT AND REGULATION

Additel manufactures high-quality test tools and portable calibrators for process, test, measurement, and calibration applications

Astava offers a vast line of universal manifolds in many different configurations from needle valves to 5 valve manifolds. Astava has the ability to attach to any manufacturer pressure transmitter in the industry.

Specializes in the design and fabrication of any need in the natural gas industry to include measurement and regulation stations, mainline valve sets, pig launchers/receivers, meter sets, farm taps, meter tubes, and spools

Ham-Let provides a wide variety of innovative valves, Let-Lok® fittings, instrumentation pipe fittings, and hoses for many industries including: Oil & Gas, Semiconductor and Power Generation

Manufacturer of Trunnion-Mounted Ball Valves, Floating Ball Valves, Swing Check Valves, Slab Gate Valves (Through Conduit), Cast, Forge & Pressure Steel Gate, Globe, & Check

Manufacturer of handheld process calibrators for milliamp, voltage, frequency, RTD, pressure, and thermocouple. PIE process calibrators are compact, easy to learn, and simple to set up.

**RJ Machine Co.**

Orifice Plates, Single Chamber Fittings, Parts for Single Chamber, Dual Chamber Fittings, Parts for Dual Chamber, Seal Rings, Flow Conditioners, Thermowells, Flanges

From compact, low power solutions, to ultimate 5G performance and ruggedness, Sierra Wireless' portfolio of Pro and Essential routers keep your critical operations connected.

Premier distributor of valves, actuators & measurement products. We stock everyday commodity valves, and also specialize in hard to find valves

**Trace-Safe® by NEPTCO**

Trace-Safe® is the only water-blocking tracer wire. It is the strongest tracer wire and eliminates the need to use two or more standard tracer wires for directional drilling applications

**Patented Thermal Solutions**

Pilot Gas Heaters, Line Heater Alternatives, CNG Decompression w/o Pre Heaters, LNG Pre-Cooling, Eliminates Greenhouse Gas Emissions

H<sub>2</sub>O Moisture & Hydrocarbon Dewpoint Analyzers. The Most Advanced Measurement Systems Available Using Patented CERS™ Technology

Engineers & Manufactures High Performance Pilot-Type Gas Regulators with a Patented Piston Control System. Offering Wafer-Style Axial Flow Design & an Innovative Cartridge Insert Design.

Engineers & Manufactures High Performance Pilot-Type Pneumatic Pressure Controllers, Electronic Controllers, Anti-Surge Controls, Valve Gas Positioners, Control Valves. VRG's Valve Pilot Controllers (VPC's) represent the next generation of pilot-type controllers for gas regulation applications.
